

NOTICE OF PRIVACY PRACTICES

This notice describes how medical information about you may be used/disclosed and how you can get access to this information.

Health Insurance Portability & Accountability Act of 1996 (HIPAA) requires all health care records and other individually identifiable health information (protected health information) used or disclosed to us in any form, whether electronically, on paper, or orally, be kept confidential. This federal law gives you, the patient, significant rights to understand and control how your health information is used. HIPAA provides penalties for covered entities that misuse personal health information.

As required by HIPAA, we have prepared this explanation of how we are required to maintain the privacy of your health information and how we may use and disclose your health information. Without specific written authorization, we are permitted to use and disclose your health care records for the purposes of such things as treatment, payment, and health care operations.

- Treatment means providing, coordinating, or managing health care and related services by one or more health care providers and/or authorities as required by law or court order.
- Payment means such activities as obtaining reimbursement for services, confirming coverage, billing or collection activities, and utilization review.
- Health Care Operations include the business aspects of running our practice, such as conducting quality assessment and improvement activities, auditing functions, cost-management analysis, and customer service. An example would include a periodic assessment of our documentation protocols.

In addition, your confidential information may be used to remind you of an appointment (by phone or mail) or provide you with information about treatment options or other health-related services. As to disclosures:

- We will disclose your PROTECTED HEALTH INFORMATION when we are required to do so by federal, state, or local law.
- We may disclose your PROTECTED HEALTH INFORMATION to public health authorities that are authorized by law to collect information; to a health oversight agency for activities authorized by law included but not limited to: response to a court or administrative order, if you are involved in a lawsuit or similar proceeding; response to a discovery request, subpoena, or other lawful process by another party involved in the dispute, but only if we have made an effort to inform you of the request or to obtain an order protecting the information the party has requested.
- We may disclose your PROTECTED HEALTH INFORMATION to a medical examiner or coroner to identify a deceased individual or to identify the cause of death.
- We may disclose your PROTECTED HEALTH INFORMATION when necessary to reduce or prevent a serious threat to your health and safety or the health and safety of another individual or the public. Under these circumstances, we will only make disclosures to a person or organization able to help prevent the threat.

Any other uses and disclosures will be made with your written authorization. You may revoke such authorization in writing and we are required to honor and abide by that written request, except to the extent that we have already taken actions relying on your authorization; or required by court order; and/or by law.

We reserve the right to change the terms of our Notice of Privacy Practices and to make the new notice provisions effective for all PROTECTED HEALTH INFORMATION that we maintain. Revisions to our Notice of Privacy Practices will be posted on the effective date and you may request a written copy of the Revised Notice from this office.
